WORK EXPERIENCE

Senior Software Engineer - V2Solutions

Aug 2022 – Present

- Led architecture and planning for applications like HROne, Exception Management, and Loss Mitigation portals.
- Integrated **DocuSign for automated offer letters** in HROne, reducing HR processing time by ~ 95%.
- Refactored **HROne's complete frontend codebase** to comply with new design system guidelines using Vue 3 and TypeScript, ensuring consistent component styling and improved maintainability.
- Spearheaded 2-week Agile sprints, tracking sprint velocity, rework metrics, and team retrospectives.
- Delivered a Bulk Import feature, streamlining multi-request creation workflows.
- **Mentored 4 interns** and aligned cross-functional collaboration with business goals.
- Designed and developed automation test suites using Playwright, reducing production bugs by 50%.
- Leveraged **Playwright MCP and GitHub Copilot** to streamline automated test case creation, achieving a 50% reduction in development time.
- Contributed to **CCM Common UI Libraries** shared across projects.

Software Development Engineer - I (Front-end) - PINscale

Sept 2021 – Aug 2022

- I had worked on the Taskflow 4.0 (CRM and Task Management Application) team.
- Designed and developed UI rich and pixel-perfect reusable React components for the organisation.
- Delivered bank details UI components in the ASL Dashboard application.
- Designed and developed core features of the IDM 4.0 application, like Editor, Drag n Drop, Routing, etc.
- Integrated SSO login flows for the IDM 4.0 application.
- Contributed to various commonly used internal libraries.
- Designed and developed many mini-projects and assessed the end users with test cases.
- Delivered React content, which includes coding assignments and exams with test cases.
- Involved in the course content design team and loaded 30% of the React content in the NxtWave platform.

Software Developer Intern - iB Hubs

July 2019 – Aug 2021

- Worked in an agile development environment.
- Involved in frontend development of various projects using React JS, MobX, and other frontend libraries.
- Demonstrated several POCs for various team requirements.
- Familiarised with powerful task frameworks to complete the task on time with quality.

SKILLS

- **Programming Languages & Frameworks**
 - TypeScript, JavaScript, Python, and C.
 - React JS, Vue JS, Tailwind CSS, styled-components, Xstate, React Query, Webpack, HTML, CSS, Bootstrap, CSS modules, MobX, Express JS, NodeJS, and Automation with JEST, Playwright.
- **Development Tools & Software**
 - VS Code, JIRA, Cursor, Slack, GIT, AWS Cloud commit, AWS EC2, ClickUp, etc.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Rajiv Gandhi University of Knowledge Technologies, RK Valley – Kadapa, India Aug 2017 – Aug 2021 | CGPA: **8.9/10**

CERTIFICATES

- [Azure Developer Associate](#) Aug 2024 - Aug 2026
